

Mab to LCMV (Lymphocytic Choriomeningitis Virus)

Clone Determination	M 104
Category	Mouse monoclonal
Immunoglobulin Class	IgG ₁
Purification/Form	Hybridoma culture supernatant
Antigen	LCMV isolated from human HeLa cells
Specificity	The antibody reacts with LCMV-infected cells (e.g. Vero, HeLa)
Antigen recognized in species (tested so far)	Human, mouse
Application	Suitable for <ul style="list-style-type: none">• Immunoblotting (Western)• Immunofluorescence microscopy• Immunohistochemistry on frozen tissue
Working Dilution	Ready-to-use for immunofluorescence microscopy
Storage	At 2 - 8°C
Volume	5 ml (contains 0.09% sodium azide)

Cat. No. 651106
